

2019-2022 Superior Area TIP Amendments #4-6

WisDOT has requested TIP amendments for three new projects in 2018-2019. Work is planned to install signals at the intersection of STH 35/105 (locally known as Tower Avenue) and Central Ave/61st Avenue. Signals are being installed due to increased traffic and movements in proximity to the intersection. Engineering work is scheduled to begin in CY 2018 with construction to occur in CY 2019-2020.

New Project TIP Amendment #4
