

Amendment #3 - 2019-2022 Duluth Area TIP

Project - French River Wayside Rehabilitation Project

Date: June 10, 2019

Resolution # 19-07

St. Louis County is requesting an amendment to the French River Wayside Rehabilitation Project. This amendment increases the total funding and moves the project up from 2022 to 2020. The federal funding would continue to be paid back in 2022, as originally programmed. The reason for the change is that St. Louis County was in the planning process of replacing the French River Bridge when awarded the Transportation Alternatives (TA) funds for the wayside project. As the process has moved forward it was determined that the bridge project is going to slightly increase the elevation of the road. Therefore, it was determined to do both projects together rather than spend money trying to tie the existing wayside into the new road elevation only to redo it in a couple of years.

These changes are noted below:

RED text indicates proposed changes from the original project listing.

Project	Description	Est. Length (Miles)	Year	Federal	State/Local	Total
069-060-002	French River Wayside Rehabilitation Project	NA	2022	\$480,000	\$120,000	\$600,000
			2020	\$0	\$2,985,433	\$3,465,433
						(AC \$480,000)
069-060-002 AC	French River Wayside Rehabilitation Project	NA	2022	\$480,000
