

# 2020 MIC Area (Minnesota) Safety Performance Measure Targets Resolution for Adoption

TAC and MIC Meetings  
December 10/11, 2019

Federal Law  
23 CFR 490, Subpart B

- Highway Safety Improvement Program (HSIP)
- Applies to all public roads
- Explains how to calculate each target
- State DOTs and MPOs shall establish targets for each Performance Measure
- Sets deadlines for target setting and implementation

## 5 Required Safety Performance Targets

---

- # of Traffic Fatalities
- Rate of Traffic Fatalities
- # of Serious Injuries
- Rate of Serious Injuries
- # of Non-Motorized Fatalities and Serious Injuries

- This request is for MN areas of the MIC area only
- MIC must adopt safety PM targets for MN portion of the MIC area by February 2020.
- MIC adopted safety PM targets for WI portion of the MIC area in October 2019.

# MIC options

---

## **The MIC can either:**

- Adopt safety PM targets adopted by the state (MnDOT)  
- or -
- Develop and adopt their own safety PM targets

## **MIC has chosen to adopt MnDOT targets**

- Most MN MPOs are adopting MnDOT targets

# Reporting and Progress

---

The MIC must meet or “make significant progress towards meeting” targets on 4 of the 5 PMs

- TIP
- Long Range Transportation Plan

# Safety Performance Measure Targets for 2020

MnDOT established the target values

| Measure   | 2019 Target                  | 2020 Target                                |
|---|------------------------------|--|
| Number of Traffic Fatalities                          | 372.2                        | <b>375.4</b>                               |
| Rate of Traffic Fatalities                            | 0.622<br>per 100 million VMT | <b>0.626</b><br><b>per 100 million VMT</b> |
| Number of Serious Injuries                            | 1711                         | <b>1714.2</b>                              |
| Rate of Serious Injuries                              | 2.854<br>per 100 Million VMT | <b>2.854</b><br><b>per100 Million VMT</b>  |
| Number of Non-Motorized Fatalities & Serious Injuries | 267.5                        | <b>317.0</b>                               |

*VMT = Vehicle Miles Traveled*

# Motion Request

Establishing the following safety Performance Measure targets for MIC Area (Minnesota) for 2020

| Measure   | 2020 Target                  |
|---|------------------------------|
| Number of Traffic Fatalities                          | 375.4                        |
| Rate of Traffic Fatalities                            | 0.626<br>per 100 million VMT |
| Number of Serious Injuries                            | 1714.2                       |
| Rate of Serious Injuries                              | 2.854<br>per 100 Million VMT |
| Number of Non-Motorized Fatalities & Serious Injuries | 317.0                        |
